

Housing and Services
Resource Center

**Innovators Share Strategies to Advance
Inclusive and Integrated Housing and
Supports for People with I/DD**

September 22, 2023
Webinar

Welcome

Housing and Services
Resource Center

Webinar is hosted by the
Housing and Services Resource Center (HSRC)

Facilitator

Ryan Elza, Interagency Housing Innovation & Strategy Lead
Administration for Community Living (ACL)

Instructions for Zoom

This event is being recorded.

Audio Options

- Use your computer speakers, **OR** dial in using the phone number in your registration email.
- All participants are muted.

Questions and Comments

- Please actively use chat throughout the meeting, especially for your comments.
- To ask a presenter a question, please use the Q&A function.

Or, send your question or comment via email to HSRC@ACL.HHS.GOV

Accessibility

Maximizing view of ASL interpreters

- Enlarge view of ASL interpreter by “pinning” them:
Click on their video window and select the Pin icon.

Screen Reader Users: Reduce unwanted chatter

- Request speech on demand:
Insert, Spacebar, “S”

Agenda

- Welcome and Housekeeping
- Opening Remarks
- Introduce the Speakers
- Speaker Presentations
- Panel Conversation
- Q&A
- Closing

Project Design

- How to design the SHDP in a way that best benefits participants?
- What technologies should be included?
- What technology infrastructure is necessary?
- How can we ensure continued success?

Program Advisory Group

- Person with lived experience
- State AT Act program
- Ohio Department of Medicaid
- Ohio Department of Developmental Disabilities
- County Board of DD
- Social work expert
- Rehabilitation services
- Expert in Psychology and intellectual and developmental disabilities

Technology Advisory Group

- Experts in technology solutions for people with developmental disabilities
 - Computer engineer
 - Mechanical engineer
- IT experts
 - Network engineer & parent
- Expert in Psychology and intellectual and developmental disabilities

Program Advisory Group

- Person with lived experience
- State AT Act program
- Ohio Department of Medicaid
- Ohio Department of Developmental Disabilities
- County Board of DD
- Social work expert
- Rehabilitation services
- Expert in Psychology and intellectual and developmental disabilities

- **Outline mission, vision, and goals**
- **Outlined service plan**
- **Develop survey**

Technology Advisory Group

- Experts in technology solutions for people with developmental disabilities
 - Computer engineer
 - Mechanical engineer
- IT experts
 - Network engineer & parent
- Expert in Psychology and intellectual and developmental disabilities

- **Identify needs**
- **Reduce barriers to successful demonstration**
- **Feedback on technology options**

Continued Success

- Review feedback
- Annually update technologies
- Capitalize on partner relationships

THE OHIO STATE UNIVERSITY

NISONGER CENTER

Partner relationships

- Assistive Technology of Ohio - Ohio AT Act Program
- Short-term and long-term device loans
- Consultation, including annual technology update discussions
- Follow-up with participants
- Funding support

Lessons learned

- Network security
 - A business may have security parameters that are not common in homes
- Technology is fickle
 - Technology companies can end support for a certain function
 - Acknowledge technologies limitations

Participation

- FY23
 - Tours: 50
 - People: 140
- Tour participation:
 - 1-42 participants

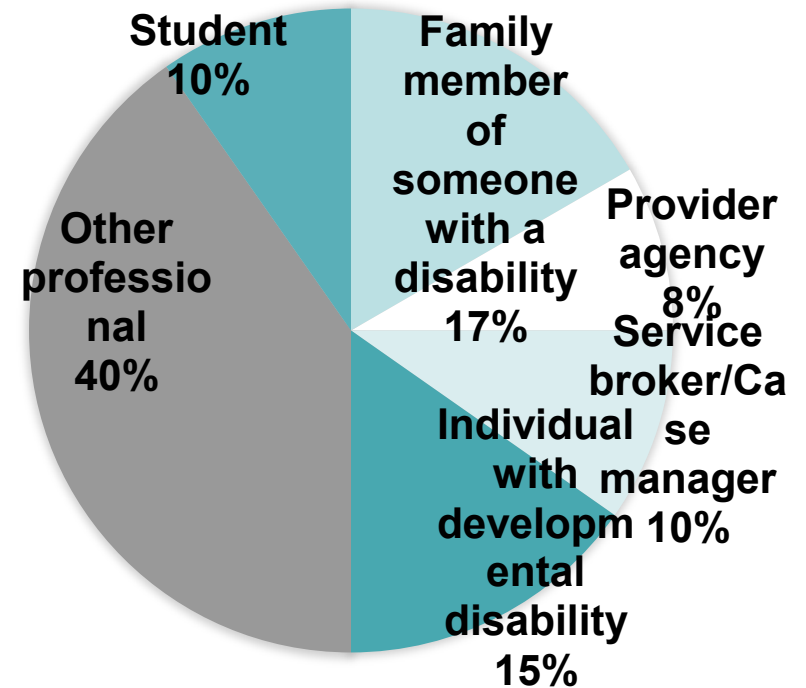

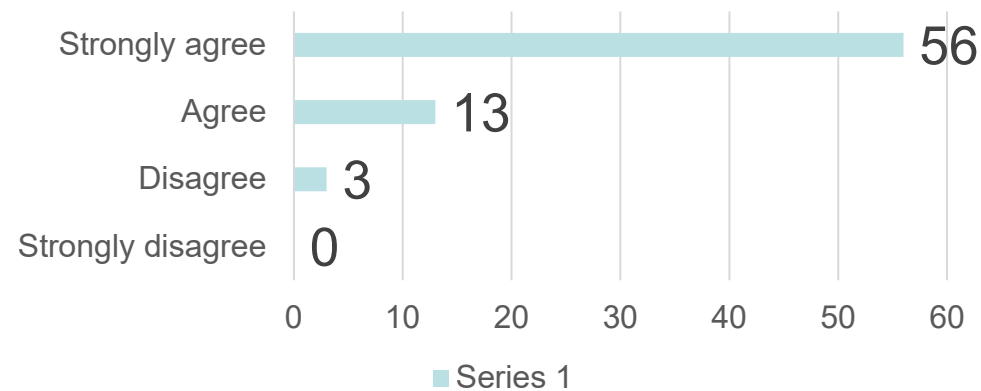

Feedback Survey

- Respondent type (72 respondents)
 - Other professionals: State agency staff, OT, education
- Satisfaction (72 respondents)

- Gained knowledge (72 respondents)

Feedback Survey

- How likely are you to recommend to a friend or colleague?

Quotes from participants

- “Last week we had our first individual start Remote Support services for 8 hours overnight, every night. He is extremely happy with his increased autonomy and quality of life.”
- “Touring the Smart Home Discovery Place was very informative and helpful for me. The experience helped guide the internal conversations we had within [our provider agency] on how we implement and use Assistive Technologies and was a basis for the Smart Home Try Out site that [our provider agency] developed for people who receive services”

Quotes from participants

- “I was very much impacted by the visit. I am in the research phase of the process as my son is still in high school and we estimate that we are at least 5 years away from being ready for him to live in a community setting. I am also the Parent Mentor for [our school district] so I have shared with many families and staff the things I have learned. I am also the neighbor of an elderly woman who is going to need some technology in order to return home from rehab. I have shared with her loved ones some of the possibilities that are available!”

Anchored in Inclusion

Segregation

People with disabilities are segregated in:

- Hospitals
- Institutions
- Congregate Settings
- Homeless Shelters
- Disability-specific housing developments

© 2023 The
Kelsey

Integration

People with and without disabilities live in the same building physically but with barriers to full access, separate lives and experiences, and no community connections.

3
4

Inclusion

People with and without disabilities share community together, diversity is valued, interdependence is supported, and people have access to the same spaces and experiences.

The **communities we build** prove new, replicable models of inclusive, accessible housing and provide homes to people who need them most.

The Kelsey Ayer Station, San Jose

115 homes; mixed income with 30% of units priced at \$500/month; an accelerated development timeline. Accessible design, transit-oriented location, outdoor amenities, and on-site Inclusion Concierge services.

Opening early 2024.

© 2023 The Kelsey®

The Kelsey Civic Center, San Francisco

112 homes; mixed income with 30% of units priced at \$500/month. Sustainability awarded project, Disability Community Cultural Center, accessible design, on-site Inclusion Concierge. Opening early 2025.

3

The Kelsey at Atlas, Oakland

A pilot community in a market rate building; our signature Inclusion Concierge enhances services, builds community, and supports residents with disabilities.

Community

with connections,
recreation,
spirituality, joy,
meaningful work,
and relationships.

Accelerate Housing

Open Source Resources

Our open-source, free resources support organizations in their own efforts to build inclusive housing. Resources include toolkits for community outreach, technical guidance on financing and project development, design guidelines, strategies for increasing disabled leadership, and beyond. Office Hours gather housers at all stages of development to learn more and ask questions about their own housing efforts.

© 2023 The Kelsey®

Capacity Support

The Kelsey provides technical assistance and project management for organizations across all stages of their disability-forward housing efforts. Whether structuring community engagement, doing site feasibility, selecting a development partner, overseeing a housing project launch, managing design partners, and beyond, we support people with a vision for inclusive housing to bring projects to life. Past clients include affordable housing developers, disability service providers, universities, housing finance organizations, and family groups.

Co-development

We co-develop inclusive housing in partnership with local providers and housing developers. The Kelsey brings our expertise in disability-forward housing affordability, accessibility, and inclusivity to best-in-class local teams who know their communities and have a track record of housing delivery. Partners include affordable housing and market-rate developers.

Creating an Inclusive World, One Community at a Time

Our Mission

To build inclusive communities and strengthen neighborhoods through diverse programming, sustainable affordable housing, and social spaces for people of all abilities

Our Why

7.37M

Adults in the U.S. living with a developmental disability (DD)*

1.3M

People with DD lived with a caregiver older than 60 in 2017*

62%

People with DD dream of living in their own apartment*

The loneliness epidemic is a public health issue.**

AWD are more likely to report loneliness, low social support and social isolation.***

Higher prevalence of loneliness found amongst AWD who are younger, economically inactive, living in rented or other accommodation, living alone and have low levels of access to environmental assets.***

Loneliness and social isolation increase the risk for premature death and preventable disease.**

Our Philosophy

Why does OSG promote interdependence over independence?

Independence

- Self-sufficiency
- Unrealistic goal
- Based on functionality
- Social isolation
- Vague standard of achievement

Interdependence

- Mutual dependence
- Reciprocal relationships
- Based on needs and strengths
- Self-actualization
- Social inclusion
- Specific to each person

Our Approach

Housing First Model

Prioritize permanent housing then add support through over 100+ hours of programming each month.

Our Communities

Gilliam Place, Arlington

Our Impact

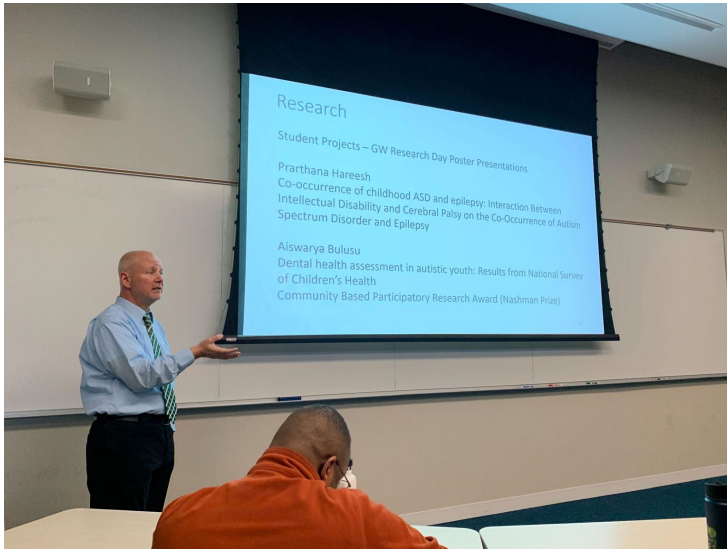

How do inclusive communities like these impact the health outcomes of adults with DD?

In collaboration with Melwood and Dr. Cleary at the George Washington University (GWU), OSG conducted a research study to examine the measurable impact that a supportive living model has on individuals with DD.

Baseline data collection ended May 2023; key findings:

- In response to the question, “How would you rate your overall quality of life?”, **84%** of respondents reported it as good or very good.
- In response to the question, “How satisfied are you with your health?”, **67%** responded satisfied or very satisfied.
- Respondents reported the lowest levels of disabilities in the domains of **mobility** and **self-care**, and the highest levels of disability in the domains of **getting along with others** and **participation in life activities**.

Dr. Sean D. Cleary, PhD, MPH

Department of Epidemiology
George Washington University

Thank you!

“The deepest sense of life's meaning and purpose arises from our interdependence and, in turn, our willingness to relate to others and respond to their needs.”

-Hugh Mackay

Q & A

HSRC Website

The screenshot shows the homepage of the Housing and Services Resource Center. At the top is a dark blue navigation bar with links for Home, About, Focus Areas, Tools, What's New, and a search icon. Below the navigation bar is the HSRC logo, which consists of a stylized house icon and the text "Housing and Services Resource Center". To the right of the logo is a yellow button that says "I NEED HOUSING OR SERVICES HELP". The main heading reads "Connecting the housing sector and the community living networks" with a graphic of colorful houses. Below this is a paragraph explaining the center's mission: "The Housing and Services Resource Center was created for people who work in the organizations and systems that provide housing resources and homelessness services, behavioral and mental health services, independent living services and other supportive services, and others who are working to help people live successfully and stably in the community." This is followed by a paragraph about the center's goal: "Our goal is to foster collaboration and cross-sector partnerships in order to streamline access to services, better leverage resources, and ultimately make community living possible for more people." A section titled "People working in these organizations can use this site to:" lists four bullet points: "Learn about how to develop and expand partnerships", "Quickly find tools designed for community collaborations", "Increase knowledge to support people with disabilities, older adults, and people experiencing homelessness to get/keep affordable, accessible housing and voluntary services", and "Discover innovative models and strategies". Below this is a paragraph about the center's partnership: "The Center is part of a partnership between the U.S. Department of Health and Human Services and the U.S. Department of Housing and Urban Development to make community living a reality for all. This partnership will expand accessible, affordable housing; help people exit homelessness; improve home and community-based services; and address the institutional bias in America's long-term care system." At the bottom, there are two white boxes. The left box is titled "Focus Areas for Learning" and contains the text "Explore these sections to learn more about the core topics of our work." with a bullet point for "Accessible, Affordable Housing". The right box is titled "Resources for Action" and contains the text "Practical, actionable information for professionals" with two bullet points: "Tools" and "Model Practices and Partnerships".

Housing and Services Resource Center

I NEED HOUSING OR SERVICES HELP

Connecting the housing sector and the community living networks

The Housing and Services Resource Center was created for people who work in the organizations and systems that provide housing resources and homelessness services, behavioral and mental health services, independent living services and other supportive services, and others who are working to help people live successfully and stably in the community.

Our goal is to foster collaboration and cross-sector partnerships in order to streamline access to services, better leverage resources, and ultimately make community living possible for more people.

People working in these organizations can use this site to:

- Learn about how to develop and expand partnerships
- Quickly find tools designed for community collaborations
- Increase knowledge to support people with disabilities, older adults, and people experiencing homelessness to get/keep affordable, accessible housing and voluntary services
- Discover innovative models and strategies

The Center is part of a [partnership between the U.S. Department of Health and Human Services and the U.S. Department of Housing and Urban Development](#) to make community living a reality for all. This partnership will expand accessible, affordable housing; help people exit homelessness; improve home and community-based services; and address the institutional bias in America's long-term care system.
